## IAM ANALYST

Identity & Access Management Analyst with 5+ years of experience supporting and analyzing workforce IAM systems in enterprise and academic environments. Proven background in access lifecycle management, IAM policy enforcement, audit readiness, and security risk reduction. Experienced with Microsoft Entra ID (Azure AD), Active Directory, Okta, and SailPoint (Saviynt working knowledge), with strong understanding of SSO, MFA, OIDC, OpenID, SAML, Zero Trust concepts, and least-privilege access models along with knowledge of identity proofing and identity verification technologies. Adept at requirements gathering, cross-functional collaboration, compliance support, and IAM process improvement within regulated environments. Working knowledge of SOX, FAA (FAR), DFARS, and PII compliance regulations.

## CORE COMPETENCIES

Access Governance, Agile SDLC Collaboration, Audit Readiness, Authentication & Authorization, Compliance Support, GRC Awareness, IAM Policies Standards & Procedures, Identity & Access Management (IAM), Identity Lifecycle Management, Microsoft Entra ID (Azure AD), NIST Cybersecurity Framework, OIDC, Okta SSO & MFA, OpenID, Privileged Access Management (PAM), Requirements Gathering & Documentation, Role & Entitlement Reviews, SAML, Security Logging & Monitoring, SSO, Workforce Access Management (Joiner / Mover / Leaver), Zero Trust & Risk-Based Authorization Concepts

## PROFESSIONAL EXPERIENCE

### IT Specialist

*The Vazquez Holdings Organization LLC | Chicago, IL | Feb 2020 - Jul 2024*

- Administered workforce IAM systems supporting 1,000+ employees, improving provisioning and de-provisioning accuracy by 35% across Active Directory and Microsoft Entra ID (Azure AD).
- Collaborated on IAM requirements gathering and implementation, contributing to a 20% reduction in access-related support tickets over 12 months.
- Enforced least-privilege and separation-of-duties standards, identifying and remediating 400+ over-privileged accounts, reducing access risk by 30%.
- Supported 3 successful internal audits and compliance assessments by preparing IAM artifacts, facilitating timely access reviews, and closing 100% of audit-related findings within required timelines.
- Led quarterly security awareness sessions for 100+ users, increasing MFA enrollment from 65% to 95% over 18 months.
- Coordinated with cross-functional teams (IT, security, HR) to implement IAM enhancements aligned with security policies and end-user experience goals, improving access approval turnaround by 25%.
- Delivered monthly and quarterly reports covering IAM OKRs, KPIs, audit status, and risk assessments to leadership, informing 2 major policy revisions.

## **OIT SUPPORT SPECIALIST**

*City Colleges of Chicago – Richard J. Daley College | Chicago IL | Aug 2017 - Jan 2020*

- Managed end-to-end onboarding and off-boarding for 1,400+ faculty, staff, and students annually, ensuring 100% compliance with institutional identity lifecycle requirements.
- Resolved 300+ authentication and directory-based access issues, achieving a 95% first-touch resolution rate within SLA targets.
- Authored 10+ standardized operating procedures (SOPs) for access protocols, software deployment, and provisioning workflows, reducing request handling time by 25%.
- Assisted with patch management and compliance validation across 200+ endpoints, contributing to 100% audit readiness for annual IT security reviews.
- Generated monthly identity metrics and access governance reports for campus leadership, influencing updates to user provisioning policy and audit documentation standards.

## **FINANCIAL SERVICES ASSOCIATE**

*Walmart | Chicago IL | Jul 2024 - Present*

- Verified customer and entity identities in compliance with financial regulatory standards (e.g., KYC, AML, PII), ensuring 100% accuracy in service eligibility and fraud prevention.
- Maintained detailed, audit-ready records of access-based transactions, aligning with internal control standards and contributing to clean audit performance.
- Collaborated with store leadership and regional compliance officers to remediate access discrepancies tied to financial system usage, supporting broader identity-related risk initiatives.
- Strengthened data accuracy and transactional integrity through consistent validation, secure handling protocols, and controlled workflows involving privileged point-of-sale and customer account access.

## **EDUCATION**

Computer Science

City Colleges of Chicago – Richard J. Daley College

## **CERTIFICATIONS**

- Okta Certified Professional - In Progress (Expected March 2026)
- CompTIA Security+ - In Progress (Expected May 2026)

## **TECHNICAL TOOLKIT**

Active Directory, Audit Readiness & Compliance Support, Google Workspace, Identity Federation, Microsoft Entra ID (Azure AD), MFA, Office 365, Okta, PowerShell, Privileged Access Management (PAM), Python, SailPoint, Saviynt, Security Logging & Monitoring, SSO
