IDENTITY AND ACCESS MANAGEMENT ENGINEER

IAM specialist with 5+ years supporting enterprise identity lifecycle operations, enforcing access governance controls, and maintaining secure authentication environments across Active Directory, Azure AD, and cloud platforms. Experienced in provisioning, de-provisioning, MFA administration, auditing access rights, documenting IAM procedures, and coordinating with security and operations teams to ensure compliant identity management. Demonstrated familiarity with IAM engineering principles and cloud-native identity architecture, actively expanding capabilities in Okta, Azure, and authentication technologies.

CORE COMPETENCIES

Identity and Access Management | Active Directory | Azure AD (Entra ID) | Okta SSO & MFA | Authentication and Authorization | SSO | MFA | Access Governance | Identity Lifecycle Management | Role and Entitlement Reviews | IAM Architecture Principles | Privileged Access Management (PAM) | Vulnerability Remediation | IAM Policy Documentation | Endpoint Security | Logging and Monitoring | Incident Response Support | ServiceNow | JIRA | ITIL | NIST Frameworks | Audit Remediation | GRC Awareness

PROFESSIONAL EXPERIENCE

IT Engineer

The Vazquez Holdings Organization LLC | Chicago, IL | Feb 2020 - Jul 2024

- Administered enterprise accounts in Active Directory and Azure AD, ensuring accurate provisioning, de-provisioning, group membership adjustments, and role-based access alignment.
- Enforced least privilege standards by reviewing privileges and separating duties for sensitive access paths.
- Authored 12 IAM and security SOPs that enhanced compliance, audit readiness, and documentation quality across identity processes.
- Reviewed authentication and security logs from Event Viewer, McAfee, and Proofpoint to identify access anomalies and escalate incidents.
- Delivered quarterly security awareness sessions focused on MFA usage, secure authentication, and identity best practices.
- Supported hybrid identity environments across Office 365, Google Workspace, and VPN systems while maintaining consistent authentication integrity.
- Provided IAM documentation and operational support aligned with ITIL framework and internal GRC team needs.
- Participated in internal audits and contributed to access remediation strategies.
- Assisted in remediation of IAM-related pentest findings and implemented mitigation measures.
- Delivered periodic briefings to department heads and non-technical stakeholders on access controls, risks, and IAM improvement initiatives.

OIT SUPPORT SPECIALIST

City Colleges of Chicago – Richard J. Daley College | Chicago IL | Aug 2017 - Jan 2020

- Managed complete onboarding and off-boarding cycles for more than 1,400 users, maintaining accurate identity lifecycle documentation.
- Supported authentication troubleshooting and directory-based access requests in the institution's Active Directory environment.
- Authored SOPs governing access protocols, software deployment approval, and provisioning steps.
- Assisted with endpoint patch management and compliance checks to support secure identity and asset management.
- Delivered identity metrics and access governance reports to campus leadership.

FINANCIAL SERVICES ASSOCIATE

Walmart | Chicago IL | Jul 2024 - Present

- Verified user and entity identities in accordance with regulatory requirements.
- Maintained audit-ready logs and documentation of access-driven transactions.
- Strengthened data integrity through consistent validation and controlled privilege workflows.
- Provided support for remediation of IAM-related audit findings and contributed to identity-based vulnerability management initiatives.

EDUCATION

Computer Science

City Colleges of Chicago – Richard J. Daley College

CERTIFICATIONS (Ongoing)

- Okta Certified Professional
- Microsoft Azure Fundamentals AZ-900
- Auth0 Certified Developer
- CompTIA Security+
- Delinea Certified Engineer

TECHNICAL TOOLKIT

Active Directory | Audit Readiness | Azure AD | Endpoint Protection | Event Viewer | Google Workspace | GRC Compliance | IAM Engineering Concepts | IAM Policy Documentation | Identity Federation | ITIL | JIRA | McAfee | NIST | Office 365 | Okta SSO & MFA | Patch Management | Pentest Response | PowerShell | Privileged Access Management | Proofpoint | Python | Role Management | SailPoint | Saviynt | ServiceNow | Vulnerability Remediation

GLOBAL EXPERIENCE

- Hands-on experience configuring workflows and entitlement certifications in SailPoint IIQ and Saviynt training sandboxes.
- Capable of communicating IAM risks and mitigation strategies to technical and non-technical stakeholders, including executives.
- Exposure to legal and financial access control models through industry-aligned security practices.
